

FIRESTONE FS100

FS100

TOURING

Drive with confidence and peace of mind. Unified with all you want. Built with advanced technology for a balance of safety and comfort to meet the drivers' needs.

FEATURES

A SAFER DRIVE EVERYDAY

Chamfered edge maximises dry, wet handling and braking by improving block uniformity on ground contact that produces greater traction.

EVERYDAY IS A PLEASANT JOURNEY

Block sizes combination optimized pitch variation in the size and position of tread blocks on pattern design to help spreading noise frequency range that can minimized the pattern noise for a quite ride. Envelope ply decreases vibration to provide a smooth and comfort ride while enhancing durability.

SAFETY IN WET CONDITION

Optimised Sipe Angle and Lug effectively prevents tyre deformation and enhances water channelling to resist hydroplaning for your safety on wet roads.
